20
years of
ONE+ Innovation

AN INDUSTRY BREAKTHROUGH

1996 + 2000

**The ONE+
System launches,
the 1st of its kind
for DIY'ers.**

MARKET LEADERS IN INNOVATION

Ryobi goes
hyper green.

**Groundbreaking
Lithium+ battery
technology launches.
Makes your tools
work better and
your batteries
last longer.**

**Hybrid
technology
revolutionises the
way you power your
tools, so you
never run out
of power.**

A FIRST FOR THE DIY MARKET

Ryobi is the first to introduce Brushless technology into the DIY market. Innovation is at Ryobi's core.

**The 1st ever
DIY 5.0Ah battery
launches and, once
again, Ryobi proves
they are designed to
do more.**

Celebrate the 20th Anniversary of the Ryobi System.

An industry breakthrough that has stood the test of time, ONE+ meant a variety of different tools could all share the same battery. That hasn't changed. Ryobi likes to be one step ahead of the game, when it comes to

innovation and that has been proven with our cutting edge ONE+ batteries of today, which thanks to our Lithium+ technology actually make your tool and battery work even better than ever. So pick up a drill or a mower in-store,

upgrade your battery and discover the incredible power, innovation and versatility of the Ryobi ONE+ range that now features over 40 tools for the home and garden.

Wish Ryobi a Happy Anniversary using **#20yearsONEsystem**

A cordless range of tools just for your garden.

The Lithium+ 36V range uses the same battery pack in over 10 different tools for use around the garden and they truly deliver petrol equivalent performance.

From mowing and trimming to woodcutting and garden tidy up, you can look after your entire garden with Ryobi's 36V range throughout every season. And you'll only ever need one battery to power them all.

Lithium+
36V

The **Lithium+** 36V range is exclusive to garden tools and it's up to you how you join or grow your collection!

Powered with the ultimate Lithium+ 36V batteries with IntelliCell™ technology which monitors and balances individual cells to maximise run-times, storage life and safety. It even provides 10% more usable power.

Introducing the **NEW** generation of cordless garden tools.

Powered by **BRUSHLESS** technology.

Innovative motor technology.

Ryobi's Brushless technology uses patented electronics to control a compact but powerful motor.

Advanced electronics constantly monitor and fine tune the performance of the motor to the application. Not only does it monitor your motor but it optimises the power usage of your battery pack for increased runtime.

Powered by **Lithium+** 36V batteries.

Created with our best ever technology, intelligent 36V batteries give you petrol equivalent power and run-time. So, you can work for longer with more power.

Petrol performance with cordless convenience.

Powerful 36V Lithium+ batteries give you...

more power and longer run-times than previous lithium technologies, providing truly petrol equivalent performance.

And up to...

97% less noise and vibration*

*Compared to Ryobi® petrol outdoor products

No messy petrol or oil spills

And best of all, no emissions during use.*

- No need to mix fuel and 2 cycle oil
- No storage of fuel required
- Up to 50 x cheaper to run.

Battery Technology

The 36V Lithium-ion battery with IntelliCell™ technology monitors and balances individual cells to maximise run-times, storage life and safety, while providing up to 10% more usable power. And with the handy onboard fuel gauge you'll never be caught without enough charge for the job.

MaxPower™

Extra challenging job in the garden? Then look out for our MaxPower™ packs. MaxPower™ offers automatic power management, increasing power output when needed in high bursts for increased performance, ideal for heavy duty applications.

Mowing Hints & Tips

The perfect way to mow your lawn.

In search of a greener grass? Well why not try some of these handy tips to improve your lawn quality.

To get a much denser turf you should cut your lawn little and often. Ideally, once a week.

The height of your mower and the frequency you mow your lawn determine how healthy and attractive your lawn looks.

Also, wait for your grass to dry before mowing. Wet grass can clog up your mower and result in an uneven cut.

What type of gardener are you?

Innovative

Cordless

Innovative gardeners don't like to be tied down. They enjoy the freedom of cordless innovation where one battery powers a range of tools.

Steps for effective hedge & tree care

You might find it easier to use a pole hedge trimmer or saw for thick and hard-to-reach branches.

When cutting hedges, trim them layer by layer cutting a little bit of foliage at a time. This ensure you don't cut too much of your hedge off!

Manicured hedges should be tapered on both sides so that the base is wider than the top and light can reach the bottom of the hedge.

People sometimes use lines or wire to mark where you want to trim, so you have an even flat hedge at the end, shaped exactly how you want.

The Garden clean-up doesn't have to be a chore!

Autumn is the prettiest time of the year with multi-coloured leaves adorning your garden. But those pesky leaves can suffocate your lawn and make slippery surfaces on patios. Have a garden clean-up and see the benefits come springtime!

Turn your leaves into natural fertilizer full of healthy nutrients for your garden. Simply shred the leaves with Ryobi's new electric shredder along with shredded cuttings to add to your compost heap.

Get the whole family involved. Blow or rake leaves into a pile before collecting them up with a leaf vacuum.

What type of gardener are you?
